TAP YOUR INNER STRENGTH

INTRODUCING THE NEW SLEEK™ 150-LAP WITH  **TAP SCREEN™** TECHNOLOGY

IRONMAN® SLEEK™ 150 LAP TAP

- **LABELED INTERVAL TIMERS:** Complex routines become automatic and efficient: 3 workout sessions with 16 intervals timers and level intensity labels
- **HYDRATION ALARMS:** Fueling Alerts remind you to re-hydrate or eat at regular intervals to top off essential reserves
- **BIG DIGITS:** Easy to read while working out
- **TARGET TIME PACER:** Audible alerts (SLOW or FAST) indicate your pace performance without having to slow-up to look at your wrist
- **TRAINING LOG WITH LOCKS:** 150 laps of memory with LOCK capabilities to keep important race or training times

KEY FEATURES

- A powerful combination of innovative sport functionality and aerodynamic design for enhanced performance and comfort
- TapScreen™ Technology access advanced features without breaking stride
- Target Time Pacer gives distinct audible performance feedback when lap times are logged
- Lap Management System allows easy access to dated training logs with lock capabilities
- 150 Lap memory recall for effortless review after workout
- 100 hour chronograph with lap or split in large digits
- 199 lap counter
- Hydration & Nutrition Alarms reminds you to refuel at regular intervals
- Large Screen with Large Digitals makes the display easy to read at a glance. On-the-fly recall of lap or split
- Interval training is easy with 3 workout sessions with 16 labelled interval timers settable for up to 24 hours: countdown/stop (CS) and countdown/repeat (CR)
- Automatic interval repetition counter
- 3 customisable alarms: daily/weekday/weekend/weekly options
- 2 time zone settings makes travel easy
- All-day white reflector display
- Built-in setting reminders to quickly and easily set your watch
- Forward/backward setting for ease of use
- Co-moulded dura-strength breathable strap minimises skin contact and maximises comfort
- Easy to view in low light condition with INDIGLO® night-light
- Turn on INDIGLO® night-light with any button with NIGHT-MODE® feature
- Dependable water resistance to 100m

TRIATHLON® TARGET TRAINER DIGITAL HRM

Timex® has created a digital heart rate monitor that offers the accuracy demanded by world class athletes together with the functionality to help anyone stay 'fit for life'. Features including 4 linked interval timers with selectable Heart Rate Zone, and % of max heart rate, time in zone and recovery heart rate mean there has never been so much performance feedback at the touch of a button.

KEY FEATURES

- Digital transmission (eliminates cross-talk and fights interference)
- 50 lap memory recall
- BPM or % of max heart rate display
- 5 target zones based on max heart rate and 1 custom zone
- Recovery rate timer (1 or 2 minute)
- Review / Recall average and peak heart rate, time in zone
- Calories burned
- Time of day and month, day and date
- Daily alarm
- NIGHT-MODE® feature
- HRM strap water resistant 30 metres
- INDIGLO® night-light
- 100m Water resistant

ZONE TRAINER DIGITAL HEART RATE MONITOR

KEY FEATURES

- Digital transmission (eliminates cross-talk and flights interference)
- BPM or % of Max Heart Rate Display
- In zone indicator
- One target heart rate zone with Time in Zone recall
- Recovery rate timer in chrono (1 or 2 minute)
- Review/recall average and peak heart rate
- Calculates calories burned
- 27 lap chronograph with memory recall - split or lap display and 99 lap counter
- Countdown timer
- Alarm
- **INDIGLO®** night-light and **NIGHT-MODE®** feature
- 30m Water resistant

T5H911 • \$259.00

T5H881 • \$259.00

DIGITAL FITNESS HEART RATE MONITOR

The ultimate partner for athletes and enthusiasts alike. Input your target fitness heart rate zone and you will be kept on course with audible alert and a visual in-zone indication on screen. 27 lap memory recall and calorie expenditure mean this is the ultimate for heart rate training both during and after workout.

PERSONAL TRAINER HEART RATE MONITOR

KEY FEATURES

- Analogue transmission
- BPM or % of Max Heart Rate display
- Automatic activity timer
- One target heart rate zone with time in zone recall
- One button recovery rate timer (1 minute)
- Review/recall average and peak heart rate
- calories burned
- Strap works with heart rate enabled treadmills and fitness equipment
- Time of day and month, day and date
- **INDIGLO®** night-light
- 30m Water resistant

TIMEX® TAKES THE GUESSWORK OUT OF FITNESS

Improved fitness and athletic performance are as simple as setting a realistic fitness objective and using the Timex® Digital Heart Rate Sensor as a personal trainer.

Here is how it works:

- First select a fitness objective
- Improve your fitness
- Lose weight and burn fat
- Increase stamina and aerobic endurance
- Improve your fitness condition
- Achieve peak athletic performance

Second, select a heart rate exercise zone:

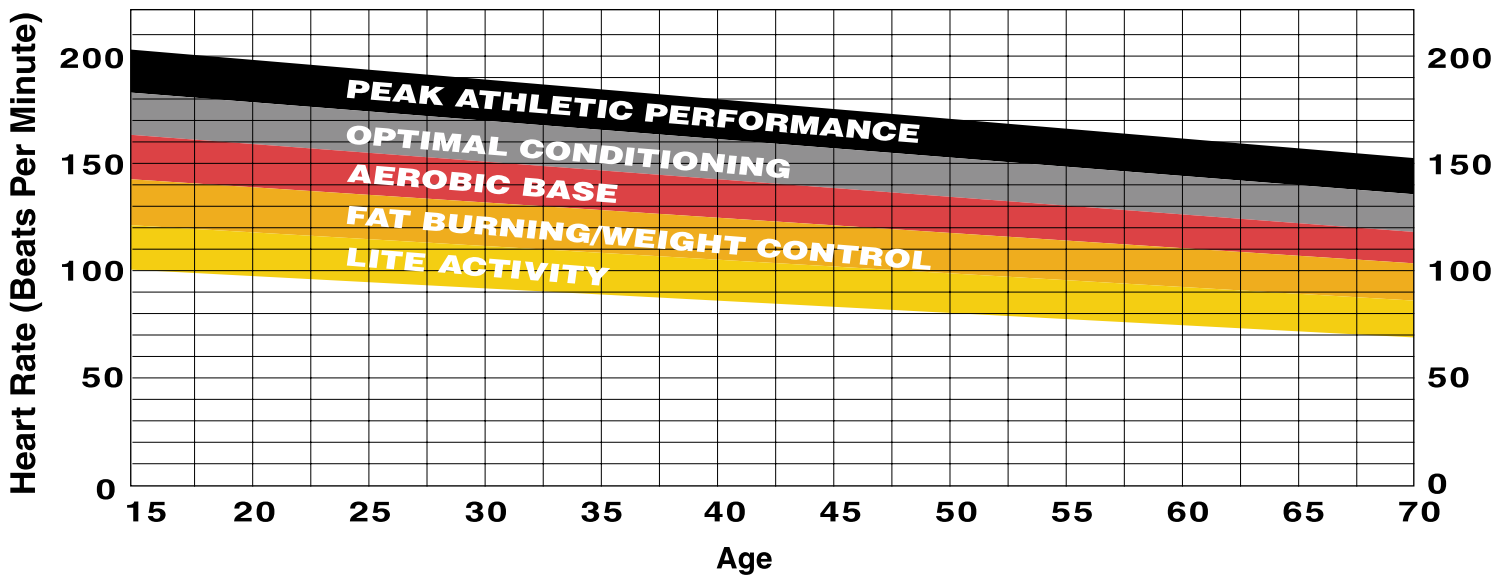

Heart rate zone exercise is the methodology widely used by fitness and sports training professionals for achieving the above fitness objectives. Once set, this digital heart rate monitor can automatically show you when you are in the exercise zone you choose and signal when you are not. It functions as a personal trainer to help keep your body exercising at an intensity level that can help you achieve your desired fitness objective without over or under exercising.

ZONE RATE	IDEAL FOR	BENEFIT DESIRED	HEART
1 LITE	LIGHT EXERCISE	MAINTAIN HEALTHY HEART / GET FIT	50% - 60%
2 FAT	WEIGHT MANAGEMENT	LOSE WEIGHT BURN FAT	60% - 70%
3 BASE	AEROBIC BASE BUILDING	INCREASE STAMINA AEROBIC	70% - 80%
4 ANAEROBIC	OPTIMAL CONDITIONING	MAINTAIN EXCELLENT FITNESS CONDITION	80% - 90%
5 PEAK	ELITE ATHLETE	MAINTAIN SUPERB ATHLETIC CONDITION	90% - 100%

E.g. To lose weight / burn fat, do your favourite exercise at 60% - 70% of your maximum heart rate for at least 30 minutes a day, three times a week. The target heart rate zone chart below illustrates the different target zone values using an age based method (220 minus your age). Select which level of condition represents your current physical condition and locate the lower and upper heart rate zones for your age from the target heart rate zone chart. See target zone settings to select the desired target zone on your Timex® performance monitor.

TARGET HEART RATE ZONE CHART

There are five basic training heart rate exercise zones. Simply select a zone that is the fitness goal you want to achieve during a particular exercise.

Think outside the circle™. Timex Expedition is shaking up the altimetre watch category with the launch of WS4. It's unique, widescreen dashboard displays relevant outdoor information at a glance. The intuitive user interface allows consumers to quickly begin using the Altimetre, Barometre, Compass and Thermometre; and quickly start exploring new terrain. Timex worked with a new technology partner on the WS4 to provide highly accurate sensors, ensuring reliability. Plus, the dynamic styling and exciting colour options make a bold statement on the wrist.

CHRONOGRAPH

- >> 1/100-second resolution up to one hour; one-second resolution up to 100 hours
- >> 99-lap count
- >> Display of lap or split time in larger digits
- >> During chronograph use, watch also min/max altitude, total ascent/descent, time spent at/above target altitude, altitude/barometric pressure/temperature graph, highest/lowest/average barometric pressure, and highest/lowest/average temperature

TIME/DATE

- >> Hours, minutes, and seconds displayed in 12- or 24-hour format
- >> Date displayed in MM-DD-YY or DD.MM.YY formats
- >> Second time zone, with independent hours, minutes, date, and format settings
- >> Hourly chime
- >> Button beep
- >> Displays both digital and analog readout

ALTIMETRE

- >> Range: -1312 to 29,520 feet
- >> Selectable display of units (feet or metres)
- >> Tracks current, highest and accumulated altitude
- >> Graphical display of ascent/descent
- >> Tracks time in and above target altitude
- >> Altitude alarm
- >> Four user-set, customizable altitude reference points

BAROMETRE

- >> Range: 300 to 1100 mbar; 14° to 122 ° F
- >> Tracks current and sea level pressure
- >> Graphical display of barometre pressure changes
- >> Display of weather forecast for upcoming 4-6 hours
- >> Temperature (Celsius or Fahrenheit)

OTHER

- >> Lightweight composite case with stainless steel bezel
- >> Comfortable, water-resistant rubber strap OR expandable fabric strap (to wear over gear)
- >> Water resistant 50 metres
- >> **INDIGLO®** with Night Mode
- >> Battery hatch, for user replaceable battery
- >> Comes with full instruction manual with quick start guide, as well as Pocket Guide for advanced features
- >> Timer settable up to 24 hours

ALARM

- >> One daily, weekday, weekend, or weekly alarm
- >> Five-minute backup alert

COMPASS

- >> Displays bearing in degrees, cardinal and half-cardinal points
- >> Virtual compass needle always points North
- >> User can calibrate declination angle

E-ALTIMETER COLLECTION

SIMPLE CALIBRATION:
Ensures accurate altitude readings

ADVANCED MOVEMENT: 6 Hand movement driven by accurate digital barometric pressure sensor

ROBUST SIZING: 50mm
Stainless Steel construction offered in semi-solid stainless steel bracelet, rubber or water resistant leather strap

INDIGLO® NIGHT-LIGHT:
View in low light conditions with NIGHT-MODE® feature

ALTITUDE SCALE:
With range from - 120 to 7600m

ALTITUDE RECALL:
Recall High and Low Altitude

T49791 • \$499.00

ALTITUDE READING: In Feet or Metres, easy to toggle between the two

KEY FEATURES

- Sophisticated analogue styling with advanced altimeter functionality captures the spirit of success and performance
- Advanced 6-hand movement driven by an accurate digital altitude sensor
- Altimetre range from -400 to 25,000ft (-120 to 7,600m)
- Relive success with minimum and maximum altitude recall feature
- Simple calibration ensures accurate altitude reading
- Easy to toggle between feet and metres
- Advanced design offers a sophisticated look with easy to read time
- Available with stainless steel bracelet, water resistant leather, or rubber strap
- Style and durability with a stainless steel bracelet
- Dependable water resistance to 100m
- Easy to view in low light conditions with **INDIGLO®** night-light
- Turn on **INDIGLO®** night-light with any button with **NIGHT-MODE®** feature

CUSTOMER SERVICE & WARRANTY INFORMATION

Designa Accessories has its own in-house Customer Service Centre to help you & your customers with any and all enquiries regarding the servicing and repair of all Designa Accessories products. Our service centre is manned by professional service consultants in conjunction with our team of qualified watch makers and technicians.

Call the Service Centre directly on:
1800-800-030

3 Year Limited Warranty
This warranty is void if the watch is opened by anyone other than the Designa Accessories Customer Service Centre.

3 Years – On movement from the date of purchase (does not include the crown)

2 Years – On battery from the date of purchase. As part of any battery replacement.

1 Year – On bands/straps. Due to irregularities in wear and tear of each individual's watch, the plating (finishing) of the watch is only guaranteed to sustain standard (factory tested) wear and tear. The lens is not covered under this warranty.

ALL WARRANTY CLAIMS MUST BE ACCOMPANIED BY A PROOF OF PURCHASE RECEIPT* CLEARLY DISPLAYING THE ORIGINAL PURCHASE DATE OF THE WATCH

Please Note: Designa Accessories reserves the right to repair or replace any warranty watch with an equivalent style.

Repairs Procedure:
Please help us to ensure that your customer's watch is repaired or serviced in the most efficient manner by noting the following:

1. When returning a watch to us for repair, please ensure that it is accompanied by the following information:
 - a. Store name, address and reference no.
 - b. Store phone number and contact name
 - c. Warranty slip & proof of purchase
 - d. A short explanation as to the suspected or known problem
 - e. Return address during business hours

For security and tracking purposes, please ensure that the watch is returned via registered post or courier to: Designa Accessories, PO Box 2576, Taren Point NSW 2229 N.B. It is unnecessary to return

product in original packaging. It is preferable to simply return the product wrapped in a suitable protective material (ie. bubble-wrap).

2. When a watch is received at Designa Accessories, it is registered by store name and docket number.
 - a. It is then passed to one of our qualified watchmakers for inspection.
 - b. If the watch is covered under warranty (as per accompanying warranty slip & proof of purchase) the watch will be repaired at no cost.
 - c. If the watch is out of warranty, we will provide you with a quotation and await your advice as to whether or not the customer would like us to proceed with the repair.
 - d. Once completed, the repair is then dispatched via courier.
